Brainstorming & Idea Prioritization

Date	15 March 2024
Team ID	XXXXXX
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Ideas below are derived from the LegalEase project capabilities, workflow, use cases, and documented future enhancements.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Team Member 1	AI-powered generation of employment contracts, NDAs, lease agreements and other legal documents.	Core Generation	1
2	Team Member 2	Editable preview so users can review and modify generated legal content before export.	User Experience	1
3	Team Member 3	Export generated documents in TXT, DOCX and branded PDF formats.	Document Export	2
4	Team Member 4	Custom branding with company logo, fonts, headings, tables and footers.	Customization	2
5	Team Member 5	Secure handling of sensitive user data and Gemini API credentials through environment configuration.	Security	3
6	Team Member 6	Future expansion with deeper contract analysis, legal-database integration and personalized recommendations.	Future Enhancement	3

Step 2: Idea Prioritization

Each grouped idea is rated on feasibility and importance. The selected priorities reflect the documented project scope and implementation focus.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority Selected (Yes/No)
1	AI-powered legal document generation with editable preview.	High	High	Yes
2	Professional formatting, branding and TXT/DOCX/PDF export.	High	High	Yes
3	Security plus future expansion into deeper analysis, legal databases and personalized recommendations.	Medium	Medium	No

Final Prioritized Ideas

Priority	Selected Idea	Why it is important for LegalEase
1	AI legal document generation + editable preview	This is the central workflow: users provide document type, parties, terms and dates, receive A
2	Formatting, branding and multi-format export	The documented solution converts generated text into professionally formatted TXT, DOCX ar
Future	Security and advanced legal capabilities	Secure API-key handling is part of the implementation, while deeper contract analysis, legal-d

Note: Team member names were not provided in the LegalEase source document, so placeholders are used. The brainstorming ideas and prioritization are based on the documented LegalEase features and future enhancements; the priority ratings are a project-planning interpretation rather than measured user research results.
