Empathy Map

Date	15 March 2024
Team ID	XXXXXX
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	4 Marks

Create an empathy map to understand the customer/user from four perspectives — what they Say, Think, Do, and Feel — in relation to the problem addressed by LegalEase.

PERSONA	NAME	ROLE / USER TYPE
Primary Persona	Alex	Startup Founder / Small-Business Owner

SAYS • “I need a professional legal document quickly.”	**THINKS** • “I may not have a legal background.”	**DOES** • Enters document type, parties, terms and effective date.	**FEELS** • Concerned about creating an incomplete or poorly structured document.
SAYS • “I want to customize the document for my business.”	**THINKS** • “I do not want to miss important clauses or details.”	**DOES** • Generates the document and reviews the AI-created content.	**FEELS** • Relieved when the content is generated and formatted automatically.
SAYS • “I need to download and share the final document easily.”	**THINKS** • “The document should look professional and be easy to edit.”	**DOES** • Edits the document and downloads it as TXT, DOCX or PDF.	**FEELS** • More confident when the document can be reviewed, edited and exported.

Empathy Map Summary

The LegalEase user wants a faster and more accessible way to prepare customizable legal documents without needing a legal background. The user provides basic document information, reviews the generated content, edits it when necessary, and exports the final document. The main emotional needs are confidence, clarity, convenience and reduced uncertainty during document preparation.

Source basis: LegalEase documentation describes users generating employment contracts, NDAs and lease agreements from inputs such as document type, parties, terms and dates, followed by editable preview and TXT/DOCX/PDF export. The persona name “Alex” is a placeholder created for the empathy-map template because the source does not provide a specific customer name.
