Demonstration of Proposed Features

Date	15 March 2026
Team ID	XXXXXX
Project Name	LegalEase
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the proposed LegalEase features and records whether they were implemented and demonstrated. The feature status is based on the supplied LegalEase project document, which documents end-to-end generation, preview/editing and multi-format export functionality.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	AI-Powered Legal Document Generation	Generate structured legal documents such as contracts, agreements, NDAs, lease agreements and employment documents from document type, parties, terms and effective date.	Implemented	Yes	Gemini 1.5 Pro is integrated through the FastAPI backend for document generation.
2	Editable Document Preview	Display the generated legal document in a styled HTML preview and allow the user to edit the generated content before downloading.	Implemented	Yes	Streamlit provides the dynamic preview and editable text area.
3	Multi-Format Document Export	Allow users to save generated documents in TXT, DOCX and PDF formats.	Implemented	Yes	TXT, formatted DOCX and branded PDF export are documented and tested.
4	Branded Legal Document Formatting	Apply professional formatting including logo, headings, terms table/bullets, fonts, headers and footers.	Implemented	Yes	DOCX and PDF formatting utilities support logo, headings, tables/bullets and footer elements.
5	FastAPI Backend & Gemini Integration	Accept document-generation requests through POST /generate, validate input and connect the frontend with the Gemini AI core.	Implemented	Yes	Pydantic DocumentRequest and GeminiDocumentGenerator are used in the documented API workflow.
6	User-Friendly Streamlit Interface	Provide inputs for document type, parties, terms and effective date, together with Generate, Edit and Download actions.	Implemented	Yes	The documented Streamlit interface supports required inputs, responsive layout, preview, editing and downloads.

Feature Implementation Summary:

Metric	Value
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%

Basis: The supplied LegalEase project document explicitly describes and tests the generation, editing, preview, API integration, Streamlit interface and TXT/DOCX/PDF download workflow.
