No. of Functional Features Included in the Solution

LegalEase: AI-Powered Legal Document Generator

Date	29 September 2026	**Team ID**	XXXXXX
Project Name	LegalEase	**Maximum Marks**	5 Marks

Functional Features Overview

This document lists the functional features included in the LegalEase project solution. The features are derived from the provided project document and cover AI-powered legal document generation, user interaction, backend API processing, editing, formatting, and multi-format export.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks
1	Legal Document Generation	Generates structured legal documents such as contracts, agreements, NDAs, lease agreements and employment documents based on document type, parties, terms and dates.	AI Core / Gemini	Done	1
2	User Input & Customization	Collects document type, involved parties, terms/conditions and effective date through the Streamlit interface and reflects user preferences in generated content.	Streamlit Frontend	Done	1
3	AI-Powered Content Generation	Uses Gemini 1.5 Pro through the GeminiDocumentGenerator to generate structured legal content from a formatted prompt.	Gemini Integration	Done	1
4	Editable Document Preview	Displays the generated document in a styled preview and provides an editable text area so users can modify the generated content.	Streamlit Frontend	Done	0.5
5	Multi-Format Export	Allows users to download generated documents as TXT, DOCX and PDF files.	Formatting / Export	Done	0.5
6	Professional Formatting & Branding	Creates formatted documents with headings, logos, tables, fonts, headers/footers and branded PDF/DOCX output.	DOCX / PDF Modules	Done	0.5
7	FastAPI Backend API	Provides the /generate POST endpoint, validates input with Pydantic DocumentRequest and returns generated legal content.	FastAPI Backend	Done	0.5
8	Text Sanitization & Terms Formatting	Cleans generated text and converts semicolon-separated terms into structured bullet points or a terms table for document output.	Core Utilities	Done	0.5

Feature Summary

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2

Features Tested & Verified	8

Feature Category Breakdown

S.No	Category	Features in Category / Example Features
1	User Interface (UI)	User input, responsive layout, Generate/Edit buttons, preview and download controls
2	Backend / Logic	FastAPI routes, Pydantic validation, document generation workflow and text sanitization
3	Database / Storage	No database/storage feature is specified in the provided LegalEase project document
4	API / Integration	Gemini API integration and FastAPI /generate endpoint
5	Security / Authentication	Secure handling of the Gemini API key through environment variables is specified; user authentication is not specified

Source basis: LegalEase project documentation supplied with the template. The feature list reflects the documented implementation and does not add unsupported functionality.
